UI/UX Design Proposal: IIPNepal

Date: October 5, 2026 | **Prepared by:** Kaushal Rai | **For:** IIPNepal

---

1. Project Objective

Redesign the IIPNepal website to function as an immersive, oversized editorial art-book. Building upon the completed landing page, the goal is to create a premium, user-centric platform that prioritizes stunning full-bleed photography, whisper-light typography, and cinematic motion to drive course discovery and enrollment.

2. Design & Motion System

Visual Identity & Layout:

- **The Canvas:** A warm, printed-paper feel using a Bone White background—never pure white.
- **Editorial Typography:** Utilizing whisper-thin, ultra-light sans-serifs scaled up to massive poster sizes with tightly carved letter-spacing.
- **Sharp & Soft Contrasts:** Sharp, unrounded edges for full-bleed images and project cards, contrasted with perfectly rounded pill shapes for interactive buttons and navigation.
- **Color Restraint:** A monochromatic Ink Black on Bone White base, punctuated by rationed, highly saturated accents (e.g., Signal Yellow, Mint Wash, Magenta) for editorial tagging and interactions.

Advanced Animation Choreography:

- **Cinematic Reveals:** Horizontal strip loading sequences that stretch and unfurl vertically to reveal full viewport photography.
- **Staggered Motion:** Multi-phase staggered typography reveals, pinned scroll interactions, and subtle parallax effects using custom easing for a weightless, frictionless feel.

3. Scope & Deliverables

Scope: Complete UI/UX design featuring advanced layout mapping and motion choreography (Development/Coding is not included).
Deliverables: High-fidelity, responsive designs (Desktop, Mobile, Tablet), detailed animation specifications, and a developer-ready style guide.

Included Pages (11 Total):

1. Home / Landing *(Completed)*
2. About Us
3. Courses Directory
4. Course Details
5. Portfolio Directory
6. Portfolio Case Study
7. How It Works
8. FAQ
9. Login/Enroll
10. Contact Us
11. Terms & Conditions

4. Timeline: 1-2 Weeks

Phase	Focus	Duration
1. Wireframing & UX	Editorial page structures and user journeys	Days 1-3
2. High-Fidelity UI	Applying the Bone White canvas, light typography, and sharp card UI	Days 4-8
3. Motion Specs	Choreographing timeline reveals, strip loads, and scroll pinning	Days 9-12
4. Final Handoff	Developer-ready files, animation guidelines, and style guide	Days 13-14
(Note: Timeline depends on prompt client feedback)		

5. Investment & Terms

Total Fee: Rs. 60,000 (Covers the 11 pages listed above)

Payment Structure:

- **50% (Rs. 30,000):** Upfront deposit to commence work.
- **50% (Rs. 30,000):** Upon final delivery of all design files.

Key Terms:

- **Revisions:** 2 rounds of consolidated revisions included.
- **Out of Scope:** Additional pages billed at a separately agreed per-page rate.
- **Ownership:** Full design rights transfer to IIPNepal upon final payment.

6. Next Steps

1. Approve and sign this proposal.
2. Transfer the 50% upfront deposit.
3. Project work begins immediately.
