UI/UX Design Proposal: IIPNepal

Date: October 8, 2026 | **Prepared by:** Kaushal Rai | **For:** IIPNepal

---

1. Project Objective

Redesign the IIPNepal website to function as an immersive, oversized editorial art-book. Building upon the completed landing page, the goal is to create a premium, user-centric platform that prioritizes stunning full-bleed photography, whisper-light typography, and cinematic motion to drive course discovery and student enrollment.

2. Design & Motion System

Visual Identity & Layout:

- **The Canvas:** A warm, printed-paper feel using a Bone White background (#fffef7)—never pure white.
- **Editorial Typography:** Utilizing whisper-thin, ultra-light sans-serifs scaled up to massive poster sizes with tightly carved letter-spacing.
- **Sharp & Soft Contrasts:** Sharp, unrounded edges (0px radius) for full-bleed images and project cards, contrasted with perfectly rounded pill shapes (1440px radius) for interactive buttons and navigation.
- **Color Restraint:** A monochromatic Ink Black on Bone White base, punctuated by rationed, highly saturated accents (e.g., Signal Yellow, Mint Wash, Magenta Bloom) for editorial tagging, badges, and interactions.

Advanced Animation Choreography:

- **Cinematic Reveals:** Horizontal strip loading sequences that stretch and unfurl vertically to reveal full viewport photography.
- **Staggered Motion:** Multi-phase staggered typography reveals, pinned horizontal scroll galleries, and subtle parallax effects using custom easing for a weightless, frictionless feel.

3. Scope & Deliverables

Scope: Complete UI/UX design featuring advanced layout mapping and motion choreography. *(Please note: This scope is exclusively for UI/UX Design; backend engineering and full-stack software development are not included).*

Deliverables: High-fidelity, responsive designs (Desktop, Mobile, Tablet), detailed animation specifications, and a developer-ready UI style guide.

Included Page Templates & Views (9 Total):

1. **Home / Landing** *(Completed)* — Editorial poster hero, What We Do, Polaroid courses showcase, admissions timeline, pinned horizontal student portfolio showcase, alumni testimonials, brand marquee strip, news & perspectives, and architectural contact lockup.
2. **About Us** — Editorial manifesto statement, institutional pillars & kinetic disciplines marquee, academic leadership dossier, 7-step admissions playbook, and prospectus downloads.
3. **Courses Directory** — Comprehensive curriculum catalog, filterable by discipline/tier, with course metadata and admissions callouts.
4. **Course Details (Dynamic Template)** — In-depth syllabus view featuring course hero, curriculum breakdown, course essentials (gear, prerequisites), and integrated tuition & FAQ section.
5. **Portfolio Directory** — Exhibition-grade student & alumni archive featuring category filters (Documentary, Studio, Fine Art, Landscape) and curatorial manifesto.
6. **Portfolio Case Study (Dynamic Template)** — Immersive editorial project view featuring full-bleed gallery showcase, photographer story dossier, and project next/previous navigation.
7. **Admissions & Course Enrollment** — Multi-step student enrollment dossier application form with course selection, applicant background, and portfolio link submission.
8. **Student Portal Login** — Dedicated student access view and interactive authentication modal.
9. **Contact & Admissions** — Direct communication channels, studio & darkroom location (Jyoti Bhawan, Kanti Path) with interactive map graphic, and admissions enquiry form.

**Note: Sections such as "How It Works" and "FAQ" are integrated directly within their respective core pages (About/Home and Course Details) rather than separate standalone pages.*

4. Timeline: 1-2 Weeks

Phase	Focus	Duration
1. Wireframing & UX	Editorial page structures and user journeys	Days 1–3
2. High-Fidelity UI	Applying the Bone White canvas, light typography, and sharp card UI	Days 4–8
3. Motion Specs	Choreographing timeline reveals, strip loads, and scroll pinning	Days 9–12
4. Final Handoff	Developer-ready files, animation guidelines, and style guide	Days 13–14

(Note: Timeline depends on prompt client feedback)

5. Investment & Terms

Total Fee: Rs. 30,000 (Covers the 9 UI/UX page templates and views listed above)

Payment Structure:

- **50% (Rs. 15,000):** Upfront deposit to commence work.
- **50% (Rs. 15,000):** Upon final delivery of all design files.

Key Terms:

- **Scope Restriction:** UI/UX design deliverables only. Backend, database integration, or software development are billed separately if requested.
- **Revisions:** 2 rounds of consolidated revisions included.
- **Out of Scope:** Additional pages billed at a separately agreed per-page rate.
- **Ownership:** Full design rights transfer to IIPNepal upon final payment.

6. Next Steps

1. Approve and sign this proposal.
2. Transfer the 50% upfront deposit (Rs. 15,000).
3. Project work begins immediately.
